

MyFam

discover how you're connected

■ Family tree builder

■ World map

■ 4D ring view

■ Tap phones to discover shared relatives

The Problem

Family connections are getting lost.

70% of people don't know relatives beyond 1st degree

Ancestry is complex, desktop-first & expensive

No app lets you discover distant connections in real-time

1.3 billion people rely on mobile as their primary device

The Solution

A beautiful, social family tree — in your pocket

2D Tree

Drag-and-drop builder with T-bar connectors

4D Rings

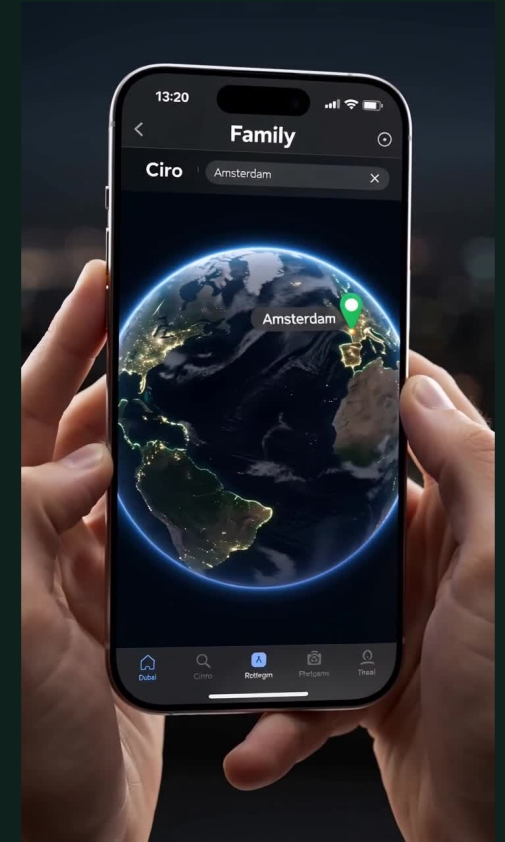

Generational rings in 3D — see the depth

World Map

Family members pinned to cities worldwide

Connect

NFC tap — discover shared relatives instantly

Freemium — one simple unlock

FREE

Build your family tree

- See up to 3rd-degree relatives
- Add & connect family members
- All 3 views (2D, 4D, Globe)
- Share via QR / link

€0.99 / month

Unlimited visibility

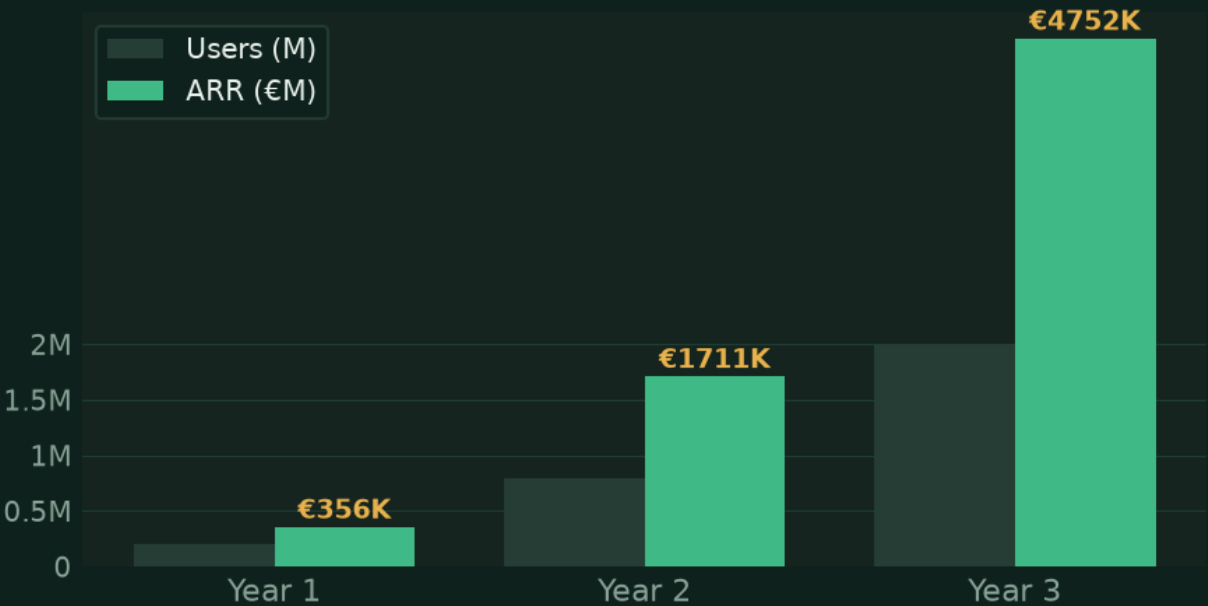

- See all distant relatives
- Path of connection via shared ancestor
- Priority in match suggestions
- Family statistics & insights

15% conversion x 200K users = €356,400 ARR in year 1

Market & Projections

200,000 users
in the first year

- TAM** 500M EU adults | 30M active genealogy enthusiasts
- MVP** Web SPA + Cloudflare Worker backend — live today
- CAC** < €2 via social sharing & viral NFC-connect feature
- LTV** €0.99 × 12 × avg. 2 yrs = €23.76 per paying user

Seed Round

€300,000

40% Engineering — mobile apps & backend scaling

30% Marketing — user acquisition & growth

20% Operations — GDPR compliance & infrastructure

10% Legal & IP — EU trademark registration

Roadmap

- Q3 2026 — iOS & Android native apps
- Q4 2026 — 50K MAU, payment system live
- Q1 2027 — 200K MAU, expand to DACH market
- Q2 2027 — Series A

"Everyone has a family."

MyFam makes that connection visible —
for everyone, everywhere in the world.
